Policy	Hardstand, Marina, Underclub and OTB Boat Storage Policy
Further Information Contact	WGA
Date Adopted By CoM	January 2014
Implementation Date	Immediate
Last Reviewed	August 23rd 2017
Next Review Due	August 2020

Introduction

GLYC has grappled with the allocation of boat storage for years. When demand for storage is greater than the available spaces, this policy will provide the Yard and Marina Officer with a means by which recommendations may be made to the Committee of Management (CoM) re allocation of boat storage.

It is not the intent of this policy to discriminate in any way between members, but rather a way for members to demonstrate use of their boat and connectedness to the club.

In applying for and then being allocated ongoing boat storage, a Member will need to demonstrate their "active use and connectedness to the club" as is required under the GLYC's Boat Storage Policy, as well as meeting any other requirements of the Rules of Association/By-Laws.

This Policy includes an "Active use and connectedness Scorecard" for use by club members, to assist them in demonstrating the "active use of their boats" as well as their "connectedness to" the GLYC.

GLYC By Laws

By-Laws: 16.0 BOAT STORAGE

Undercover boat storage, moorings, and hardstand shall be allocated to eligible members in accordance with the GLYC Boat Storage policies and procedures. Members allocated a wet berth or hard stand site shall sign an agreement, pay the prescribed fee/s and comply with the terms and conditions.

Application Procedure

1. A member must be a financial member to be eligible to apply for allocation of storage;
2. The member applies in writing using the "Boat Storage Application Form" available on the Club website;
3. The application must be accompanied by a completed "Active Use of Boat and Club Connectedness Scorecard" available at the end of this Policy;
4. The Yard and Marina Officer shall prioritise applications based on active use and connectedness, physical limitations, and any other relevant factors;
5. The CoM shall receive the recommendation of the Yard and Marina Officer and accept or reject the application and the member will be advised of the outcome.
6. The boat may be moved to the Club once the relevant deposit and annual fee have been paid.

Demonstrated "Active Use"

This policy defines "boat usage" and "club connectedness", and recognises this as activity across many facets of Club life including sailing (both racing and recreational/cruising), leadership, volunteering, social and recreational activities and membership history. Applicants will be asked to record their activities on the "**Active use of boat and Club Connectedness, Scorecard**" (with their application and annually with their storage renewal documents) and

once completed return to the Club by 1st September each year. This is not meant to be onerous with most regular boat owners are expected to easily meet the requirements.

The information will then be assessed by the Yard and Marina Officer prior to recommendations re storage being made to the CoM. The Boat Storage Review Sub-Committee may review any application and make a determination of the members "active participation" as necessary and present their findings to the CoM for a final decision.

Boat Storage Review Sub Committee

The Review Sub Committee is chaired by a Flag Officer and includes three other Senior Club Members. The sub-committee will be used by the Club where necessary to assist with storage allocation and re-allocation. The sub-committee is empowered to consider special requests for "extenuating circumstances" upon written application.

The Yard and Marina Officer may seek the assistance of the Boat Storage Review Sub-Committee at any time in regard to the implementation of this policy and in the consideration and allocation of Boat Storage spaces.
